

# Roadtrip for Relief

The Gulf Coast has been devastated by Hurricanes Katrina and Rita...

Despite the overwhelming destruction, hope is not lost. **We Will Rebuild.**

But without massive and immediate support, this land will be snatched up and gentrified before residents can even return. It's happening already!

The Common Ground Collective is fighting to empower the people of New Orleans to preserve their history, their culture, and their homes and livelihoods.

Join the Roadtrip for Relief, a nation-wide caravan of activists, allies, and returning evacuees, converging in New Orleans for the immense rebuilding project.

The Common Ground Collective, volunteers and community members will work together from November 20th to November 27th.

Shovels and hammers in hand, we will charge to the streets ready to rebuild this city even stronger than before.

**Solidarity, not Charity. Reclaim the Gulf!**
