

EXPOSE AND DEFEAT THIS REACTIONARY OFFENSIVE

David Horowitz has announced "Islamofascism Awareness Week" (IFAW) for October 22-26, to take place on campuses around the country. He has enlisted some of the most extreme, and dangerous, ideologues in a move to deepen the already serious chill in academia by bringing together an aggressive social base and unleashing it on what Horowitz calls the "tenured left." IFAW seeks to unleash a pogromist and hate-filled atmosphere against Muslim students, equate dissent and critical thinking with treason, attack Women's Studies Departments, and build the US "will to fight" more wars of aggression in the Middle East, particularly against Iran. It hypocritically claims to oppose the oppression of women and gays under Islamic rule, while promoting Christian fundamentalists who want to outlaw not only abortion but birth control as well, and argue that homosexuality is a sin punishable by death and women should not work outside the home. "Islamofascism Awareness Week" cannot be allowed to go down unchallenged. It needs to be thoroughly exposed, repudiated and politically defeated.

Some of the speakers for Islamofascist Awareness Week. How DARE these people parade as anti-fascists?!

David Horowitz

"What about the debt blacks owe to America—to white America—for liberating them from slavery? This may not seem like a serious question to some, but that only reveals their ignorance of the history of slavery and its fate." "Guns don't kill black people, other blacks do."

Ann Coulter

"We should invade their countries, kill their leaders and convert them to Christianity. We weren't punctilious about locating and punishing only Hitler and his top officers. We carpet-bombed German cities; we killed civilians. That's war. And this is war."

Rick Santorum

"And if the Supreme Court says that you have the right to consensual [gay] sex within your home, then you have the right to bigamy, you have the right to polygamy, you have the right to incest, you have the right to adultery. You have the right to anything. Does that undermine the fabric of our society? I would argue yes, it does."
