The Genocide they desire is the annihilation American society by a variety of actions; warfare, illegal immigration, flooding our labor market, denial of American identity aimed at undermining our foundations; American history and the wealth of our middle class. They attack political and social institutions, culture, language, national feelings, religion, and the economic existence of AMERICANS

Protectionists and anti immigrationists are a bunch of losers that are not happy with GLOBAL COMPETITION and the REALITY OF LIFE that they MUST COMPETE by merits, not by just being proud but dumb Americans.

Indians, Chinese, Russians, Brazilians, ARgentinians and Mexicans don't have to come to the USA for jobs, companies invest there bringing over the jobs.

You don't like this reality better get your guns and commit suicide now losers

You people are complete and total morons. First and foremost, this video is a criticism on White America... stating that the White people who immigrated to this continent (who conquered it in a hostile manner by usurping rule over it from its original inhabitants) have no right to declair that others should be deported from it

END OF COMMENTS

I COULD GO ON WITH THOUSANDS OF THESE, BUT IT WOULD BE SIMPLY MORE OF THE SAME.

The salient point are they all share a viscous contempt for the American people, our society, it's history, and it's future existence with the values we have established-the English language as a common method of unifying our people, the notion of equality, and a respect for those that settled the country as civilizers building a noble future.

What this wave of illegal aliens and their sympathizers seek is to demonize America, to establish a race based hierarchy of indigenous (i.e. Mexican) people with "native right" to the whole continent, and ultimate to ethnically cleans the western hemisphere.

Taking the long view this is not an unachievable objective. An anti-white Anti American bias is being taught in our public schools. From the comments here one can see how recent Mexican immigrants feel. Many millions of people coming here hostile to our laws, subscribing to a race based ethnic identity political dogma that calls us a murdering genocidal nation ignoring the complexity of centuries of settlement, and millions more of our own children being indoctrinated with self hate does not bode well for the nation.

As Americans we have come to expect quick solutions because of the technology we've created that has mastered the skies and travel on the continent. But what is called for now is a different mindset. We need to identify anti-Americanism and root it out-it is self destruction. We need an immigration moratorium while our institutions (schools, police, and National Guard) retake our country from a growing cancer of ghettos breeding hate against America. This hate has also been directed at black Americans as numerous blacks have been driven from their neighborhoods, killed, and otherwise marginalized by these "Reconquistas" who seek nothing short of the complete death of our people and its future on this land while calling us "xenophobes" to quell any resistance to

We need to take the long view for the interests of our children, for our children's children that they will have a vital space to be free of the endless neo-racist dogma and hate directed at them.

Otherwise our posterity will live in a world of hate and violence. These comments show the true heart of the current wave of immigration-make no mistake, the dignity and freedom, the very existence of our posterity lies in the balance.

We need an Immigration moratorium, Pro-American curricula in our schools, and enforcement of laws against treason from these numerous groups that are preaching hate for our identity and history.

I'm withholding my name for the sake of my family's personal safety. Think about that for a moment. We now live in America where it is not safe to advocate for a patriotic and proud respect for the nation.
