“This book is more than essential reading—
it is a powerful weapon in the fight to save
our planet.” — Ian Angus, editor of
climateandcapitalism.com

“Finally, a book that bridges the best of the
scholarly and activist literatures in socialist
ecology! Sophisticated and compelling,
eschewing academic jargons ‘postmodern’
and otherwise, *Ecology and Socialism* more
than competently champions a Marxist ap-
proach to environmental crisis and the kind
of economic democracy needed to achieve an
ecologically friendly system of production
and human development.”

— Paul Burkett, author of
Marxism and Ecological Economics

“*Ecology and Socialism* is not merely about
what’s wrong in the world where fossil fuels
rule our lives. It also presents a blueprint for
change...a cogent and accessible look at one
of today’s pressing social issues through the...
viewpoint of socialist activists and thinkers.”

— Ron Jacobs for *Dissident Voice*

Ecology and Socialism

Nationwide tour with author
Chris Williams

Chris Williams is a longtime environmental activist, based in New York City. He is professor of physics and chemistry at Pace University, and chair of the science department at Packer Collegiate Institute. Williams is also a frequent contributor to the *International Socialist Review*. *Ecology and Socialism* is Williams' first book.
