Learn about the International Action Center's  
Campaign for Accountability for U.S./Israeli War Crimes in

# LEBANON

*The new tragedy of Lebanon has brought death to hundreds of civilians, children, women and men. Hundreds of thousands, approaching one-fourth the population of four million, are fugitives from their homes within and outside of their country.*

*Destruction of the infrastructure will require decades to rebuild. Individuals in the U.S. and Israeli governments must be held accountable for what they did.*

*Former U.S. Attorney General Ramsey Clark*

On September 10th a group of activists went to the Middle East to gather evidence about the U.S. backed Israeli war against Lebanon.
