Sunday November 4 7¹⁵PM & Monday November 5 1PM

Director Steve York in Attendance at Both Screenings

The presidential candidate was poisoned. The election was stolen. The citizens were determined. In the freezing cold, around the clock, a million people brought Ukraine to a standstill.

A Force More Powerful Films presents

ORANGEREVOLUTION

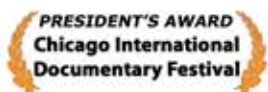

Produced and Directed by STEVE YORK

Weaving together footage previously unseen even in Ukraine, thoughtful conversations with the people who were there, and the music that was performed live at pivotal moments during the protests, *Orange Revolution* captures the spirit and the determination of the most successful political protest of the decade -- a nonviolent victory with meaning for citizens the world over.

" ...this American director has managed to put on the screen the very essence and true spirit of the Orange revolution – a feat which no Ukrainian filmmaker has yet achieved."

- Volodymyr Voitenko, editor-in-chief, KINO-KOLO magazine

a production of YORK ZIMMERMAN INC.
