I met with the deputy consul briefly while in detention in Shenzhen in February, 2019. I would like to followup with him regarding my experiences there, which were quite ugly and possibly not even legal. At the very least I would like to document this and perhaps request some remedy, if available.

Can you please provide me with his name email address? BTW, I am currently staying in Bali, Indonesia and the problems we discussed have followed me to every country I have been to, since I left China. I really do need some assistance with this and will appreciate all effective remedial action that the US State Department is willing to provide.

The police in Shenzhen refused to allow me a phone call to a lawyer; and illegally extended my stay in the temporary detention facility beyond the statutory limit of two-weeks for foreigners. This is a major problem because the facilities are severely overcrowded and they do NOT have an infirmary, which constitutes "torture" on its own merit. I am also physically disabled and I informed them of that.

They also tortured me auditorily with loud "coughing" and "sneezing" sounds and visually by constantly filling my field of vision with "masonic" police-handsigns. This is often called "cartel-signaling." This becomes overt torture after an intense period of sensitization by the police and their

spy-assassins in the community. Every police force and community-watch group in the world does this; and by now, I have been to more than "40" countries and have experienced this in every one of them, on your motivation. I am now an expert-witness and my testimony can be believed in court.

They also interrogated me a total of 31 times, which is again torture. Any interrogation is torture, as I can not leave or stop it, much less "31" times.

They also "killed" me. After reluctantly treating me with "ephedrine-hydrochloride" for breathing problems, which I would not have survived without, their doctor administered a "morphine-drip" without informing me and without any consideration for drug interaction, which is serious malpractice nearly resulting in my "permanent" death. After reviving me, they transported me to a traditional "chinese-medicine" hospital that they controlled. Which was NOT capable of treating asthma or any other serious breathing problem. There they continued the sound and visual torture and additionally kept me in "leg-irons" the entire time, causing "permanent" nerve damage to my right foot. A locked room was available in the ward, so the "leg-irons" were unnecessary.

After my continued "refusal" to confess after torture, they "unofficially" deported me to New York City, based on a "bogus" claim of my not having medical insurance. This is a bogus claim because, not only is it not required for entry into China; "they" were responsible for my medical condition by "creating" the circumstances that hospitalized me, in addition to being statutorily responsible for my health care during detention.

Fortunately, I did not have to pay for the ticket; but the "SWAT-TEAM" that accompanied me to the airport again continued the sound and visual torture. Psychopaths all.

Clearly, this "deportation" was arranged by "STATE," as I have previously complained to State about your "illegal" and "coerced" removal of me from Guyana S.A., where I was seeking asylum from "torture and other degrading treatment or punishment" specifically prohibited by UN charter, where you had me tortured, beaten, raped, starved, dehydrated, life-saving medicine withheld and every other manner of psychopathic treachery you could devise. Your agent who had complete knowledge of this was "Patrick J. Ball," then vice consul of Jamaica, who was non-consensually contacted by the police officers you had infiltrated into my cell at the lockup, while I was being held for deportation, for lack of sufficient funds. I suppose Marion V. Heroux, who was my usual contact at State did not want to be involved in torture, especially the kind you had planned and did carry-out.

You clearly consider me your property. I insist that I am NOT your property and should never have been subjected to any of this. I did NOT sell myself into slavery and neither did my parents; therefore you have no right either statutory or otherwise to regard me as chattel and to do so is a serious violation of human rights and dignity. You cannot declare anyone "non-human!"

*My current problems with you and the apparatus of the state in general began while I was living in Los Angeles. Sometime in 2003, this became so intense as to be life-threatening, where I was subjected to every form of police and community harassment possible, on a 24 hour basis. I was also subjected to a fraudulent "felony-stop," in October 2000. I was held at gunpoint by the Los Angeles Sheriffs' Department, where they had clearly been "lying-in-wait" for me, at the paid lot where I parked my car.

They claimed that they had gotten a "tip" that I was carrying a gun. This "tip" was clearly made-up and designed to characterize me as a terrorist. Your apparatus, led by the FBI, has continued this phoney

narrative, as I have been called a "sniper" to my face by police and their spies in at least 5 countries, The US, Domenica, Guyana SA, Kenya and The PRC. I want this "slander" and "libel," promulgated primarily by the US FBI to cease immediately as well as any and all other forms of interference and "outcome-meddling" or adjustment. In addition, I want to be "repaired" and "made-whole."

Aside from the nearly generation-long intense suffering caused by your pogrom of police and community torture and harassment, which included "13 YEARS" of sleep deprivation. All of my social endeavors have been infiltrated and destroyed along with my employment. In fact, I have lost about 15 years of wages, at an absolute value of about \$500,000.00, not including ordinary promotions. This has also affected my ability to choose a spouse and raise a family. The damages are incalculable.

The tip, mentioned previously, probably occurred at Los Angeles Infraguard. This may have even been called in by the FBI itself, as they are notorious for this. I want to make this perfectly clear, I have "never" carried a gun and I have never threatened anyone. Anyone who says otherwise is a God damned liar and has perverted the cause of justice and should be held accountable.

Following this "tip" your FBI "human-trafficked" me to be used as a permanent training target for your police and spies en-masse, "all over the world." I have been police gang-stalked, terrorized, interfered with, run off the road, sleep deprived and asset stripped in all of the 40 or more countries I've been to since 2010. You have deliberately prevented me from settling anywhere. Most recently you had an informant follow me from South Korea, in order to prevent me from obtaining asylum in Australia, which he and "you" achieved successfully.

Also, considering that the COINTELPRO and STASSI decomposition program I have been subjected to is probably the most complex and vicious in human history, I consider myself a priority plaintiff, in any and all collective actions against the US for the same or similar offences.

I want my day in court. I want to be made whole and I want you to remove yourself from my life.
