It All Begins With Gavin Newsom

Recently, Gavin Newsom Passed into a law. If you take your child to the hospital and your child is not vaccinated with this new untested rsv, bioweapon, and you, the parent will not allow your child to be jabbed with this new untested bio weapon and other cocktails, the state can say that is child abuse, and then the state can come after your children. This and many other illegal,

BUTTERMILK BISCUITS

unconstitutional laws are now a standard in California. Creating reasons to take children away. Because one rich white man says so??

The video above may already be removed. Know this. The State of California and 98% of the S.F. Bay Area, are hands down the numer one murderer of babies in the name of the covid-19 lie, at the time of this writing. California and the Bay Area are in the daily promotion of more of these murders. The saddest part is that the greatest majority of the population at least in San Francisco are accepting of and in compliance with this. Everyday, shouting, "Gab'in Newsom we be good niggas." Not just the white ones. Or sock puppets, take your pick. In San Francisco, as well as most of the Bay Area, less than 2% of the population will not comply with these daily murderers of children. We are called criminals.

The word dey dey means right.
